| Plug                 | YES             |
| Lamps features       | G13 T8 BL F15W  |
| Lamp life            | 8000H           |
| Transformer type     | Electronic      |
| Ballast Type         | Electronic      |
| Electrocutes Voltage | 2500            |
| Coverage Area (SQM)  | 50 m²           |
| Safety Standard      | 60335-2-59      |
| toxic fumes or vapor | No              |
| Position             | Wall Mounted    |

white

lifetime T8: 8000 hrs

The Electronic Insect Killer utilizes the black light (ultra-violet rays) of the wave length, which is proven to be the most effective lure for light sensitive flying insects, such as flies, moths, mosquitoes, and other flying insects. These insects are electrocuted by the electrically-charge metal grids. No chemicals, no smell, no sprays, no mess, pollution free and harmless to humans and pets. It is ideal for using in houses, factories, food outlets, restaurant, canteen, office, hospitals, etc.
