

Driver For Magnetic Light 200W

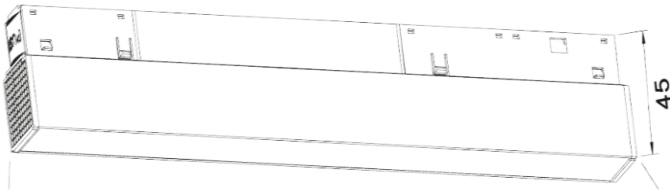

INSTRUCTION:
Item no:103134
Model: SKY-K1-48V-200W

PAMAMETERS:

MODEL NO:	SKY-K1-48V-200W	PF	0.9
INPUT VOLTAGE	AC220-240V	DIMENSIONS	45x326x22 mm
OUTPUT VOLTAGE	48 V	CLASS	I
FREQUENCY	50/60HZ	TC	90
WORKING TEMPERATURE	40	INPUT CURRENT	0.92 A max
MATERIAL	PVC	OUTPUT CURRENT	4.2 A max
PROTECTION GRADE	20	USE FOR	INDOOR

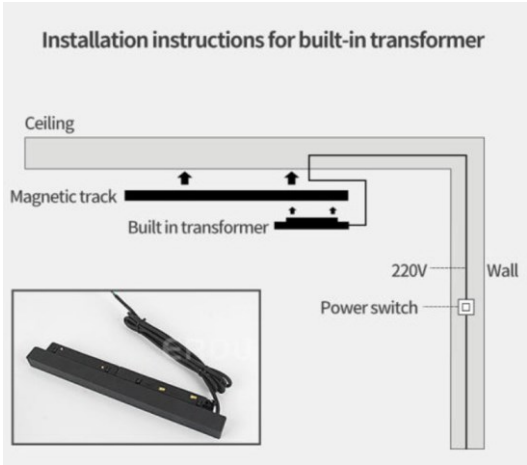

SIZE:45x326x22 mm

•Product Feature:

- 48V integrated driver
- Inbuilt into magnetic track
- Easy installation of lights
- Easy to shift light position
- Available in black
- Available in 100W and 200W

INSTALLATION:

- Concealed Power Solution:** This 48V 200W driver discreetly hides behind the scenes, offering a concealed power source for your magnetic track lighting setup. Enjoy a clean and uncluttered aesthetic while ensuring a reliable power supply.
- High Power Output:** With a robust 200W power rating, the concealed driver provides ample power to energize your magnetic track lights, allowing you to create dynamic lighting designs with precision and flexibility.
- 48V Voltage Compatibility:** Engineered for compatibility with 48V systems, the driver ensures stable and efficient operation, supporting the performance of your magnetic track lights while maintaining energy efficiency.
- Reliable Performance:** Crafted from high-quality materials, this concealed driver delivers durability and reliability, ensuring consistent performance over time for a worry-free lighting experience.
- Easy Installation:** Designed for user-friendly installation, the concealed driver streamlines the setup process, allowing for quick integration into your magnetic track lighting system with minimal effort.
