Product Description:

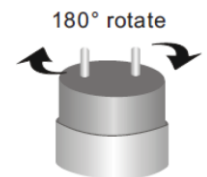

An efficient insect killer lamp designed to attract and eliminate flying insects such as mosquitoes and flies using safe and clean electric shock technology. Suitable for both indoor and outdoor use.

Key Features:

- High efficiency in attracting insects using specialized UV light.
- Powerful electric grid for instant insect elimination.
- Durable tubular design for easy installation and long-term use.
- Low power consumption.
- Chemical-free and environmentally friendly.
- Silent operation with no noise disturbance.

Applications:

- Residential areas
- Restaurants and cafes
- Offices
- Warehouses
- Farms and outdoor spaces

BASE: G13

Super protection:

- Effectively attracts and eliminates flying insects instantly.
- Provides continuous protection for a clean and hygienic environment.
- Ensures safe, chemical-free insect control for everyday use.
